

Zhengzhou Lianhua Petrochemical Co., Ltd.

—————One-stop service to solve customers' professional and difficult lubrication problems

Integrity | Specialty | Innovation | Win-win

Founded in 2004, Zhengzhou Lianhua Petrochemical Co., Ltd. is a comprehensive enterprise specializing in the research and development, production, sales, service, testing and testing of medium and high-end lubricating grease and chemical products. It has production bases in Qingdao and Tianjin, and its product system covers special oils, vehicle oils, industrial oils, metal processing oils, new energy, etc. It can provide product consulting, product design, difficult problem solving, equipment maintenance, professional training, special product OEM customization, testing, testing and other services.

Zhengzhou Lianhua Petrochemical Co., Ltd. adheres to the concept of "integrity, professionalism, innovation, and win-win", and has a good business reputation, leading technological advantages, advanced marketing concepts, strong financial strength, and perfect service system in the petrochemical industry in Henan Province.

Zhengzhou Lianhua Petrochemical's customer network covers aviation, aerospace, military industry, metallurgy, automobile manufacturing, mechanical processing, construction machinery, agricultural machinery, mining, food, medicine, new energy, artificial intelligence and other industries. On the basis of integrating various superior resources, in line with the principle of "integrity management, mutual benefit and win-win", we are committed to building an industrial product integration service expert enterprise with core competitiveness based on the whole country and facing the world. Our company is the chairman unit of the New Energy and Intelligent Lubrication Branch of Henan Equipment Management Association; Quality, integrity, after-sales service national AAA enterprise; Passed ISO9001 International Quality Management System, 14001 Environmental Management System, 45001 Occupational Health and Safety Management System Certification Enterprise: AAA-level contract-honoring and trustworthy enterprise; National credit rating AAA unit.

Team Profile

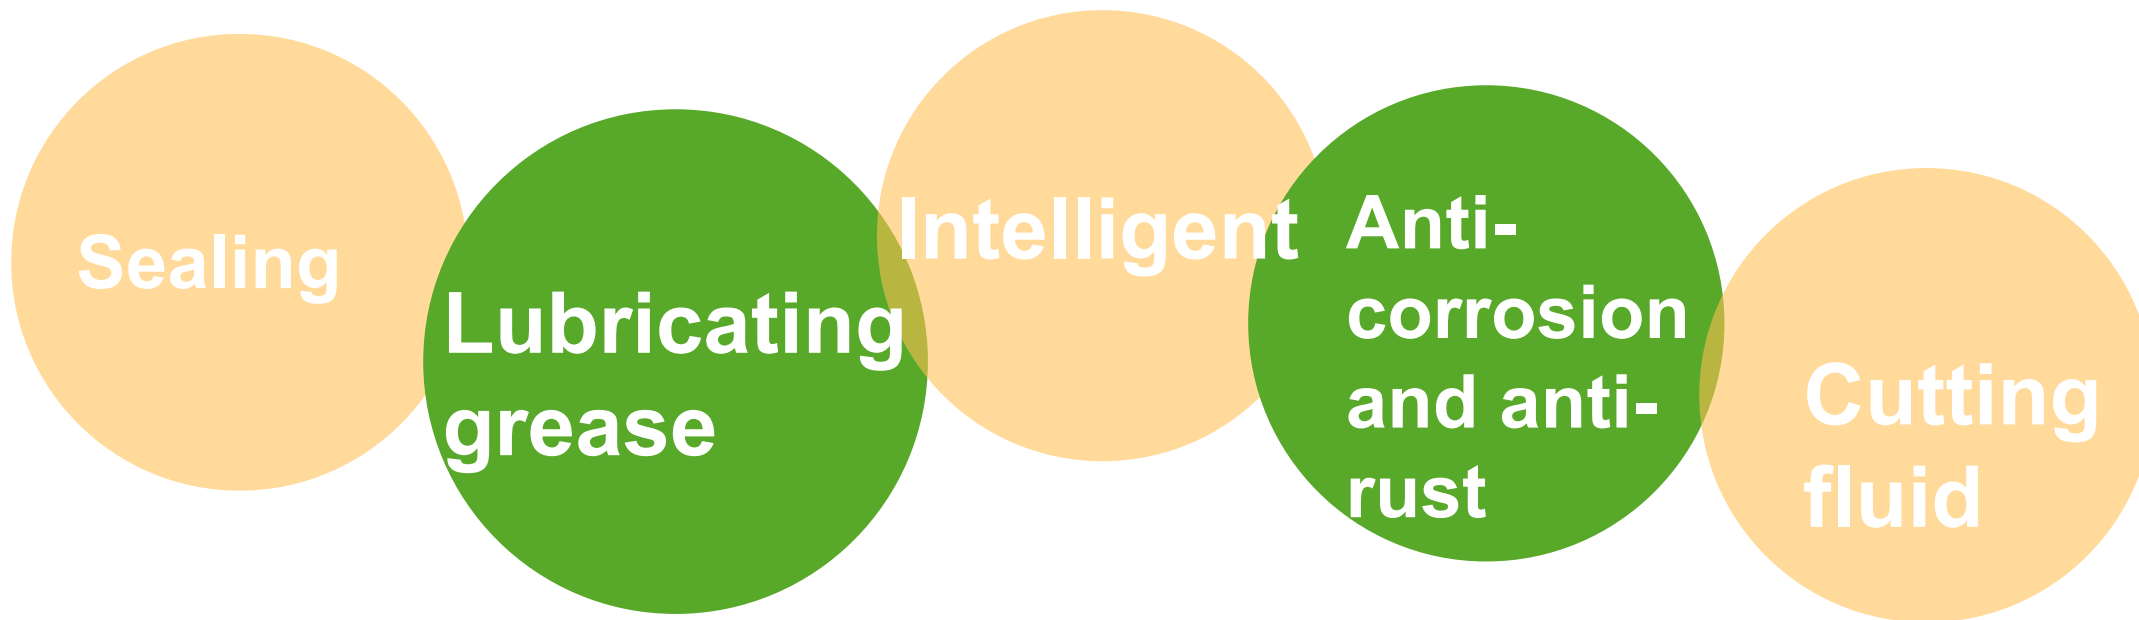

We have a professional and efficient team, with marketing center, financial center, production center, R&D center, comprehensive management center, professional R&D team, technical team, management team, service team, legal department, financial department, audit department, our team members have rich experience and profound skills in their respective fields.

We are committed to providing customers with professional, responsible and efficient services, providing customers with high-quality products, services and technical support, achieving the dreams of partners, bringing value to customers, and making unremitting efforts to build a low-carbon, environmentally friendly, energy-saving and harmonious society. Over the years, it has received unanimous praise from suppliers and strategic partners.

Our technical team is led by Dr. Jiang Zhengquan, the first prize winner of Henan Science and Technology Progress Award, and is composed of many scientific researchers. They have rich knowledge and skills, are proficient in various technologies, have good problem-solving skills, and can provide the best High-quality technical support and service.

Over the years, Lianhua Petrochemical has insisted that every drop of oil is a promise, never sell a drop of fake oil, strictly abide by the spirit of the contract, resolutely fulfill all commitments and agreements, operate with integrity, share resources, and achieve win-win and development with partners. A number of honorary certificates.

Committed to building an integrated service expert enterprise integrating R&D, production, sales, testing and service.

We focus on the OEM and industrial lubrication (sealing) fields of group customers, and are committed to providing users with efficient and reasonable lubrication (sealing) solutions, especially providing integrated solutions in the field of automotive OEMs and automotive parts.

Henan Zhilian New Materials Research Institute is a professional R&D and testing institution established in 2022 under the guidance of government functional departments and universities. The research institute adheres to the tenet of "focusing on new materials and based on research and development", takes new materials, new technology research and development and application, and technical services as the entry point, and takes innovation drive as the core, and is committed to overcoming the existing lubrication new material product end and application end technology problem.

Testing center

R&D Center

The research institute cooperates with well-known domestic universities, introduces the team of Dr. Jiang Zhengquan from the nano-lubricating material research group, and jointly builds the Henan Special New Material Engineering Technology Research Center. There are currently 12 scientific researchers, including 3 doctors, 4 masters, and 5 undergraduates. Dr. Jiang Zhengquan is the winner of the first prize (technological invention category) of Henan Science and Technology Progress Award. Dr. Zhang Li and Dr. Ju Chao are technical consultants for the research and development of special oils, and Master Xie Mengxin has studied in the State Key Laboratory of Tribology of Tsinghua University and the Institute of Friction of Tianjin High-end Equipment Research Institute of Tsinghua University.

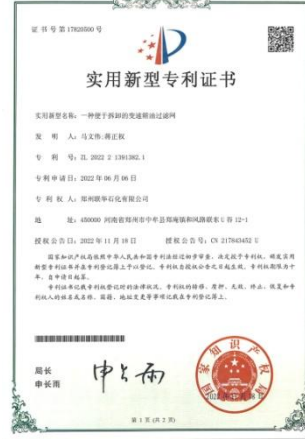

Scientific research patent

润滑油脂配料装置

风电叶片清理装置

便于拆卸的变速箱油过滤器

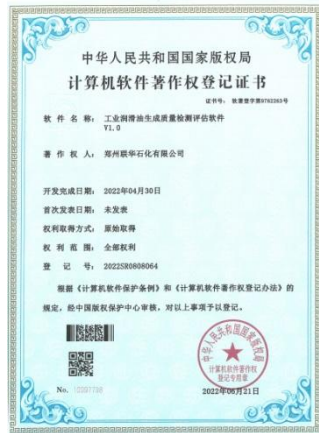

润滑脂用过滤装置

粘胶剂加工用废气处理装置

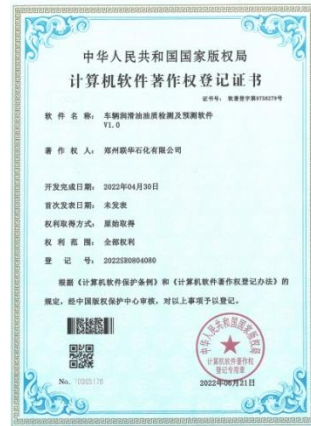

节能发动机油研磨装置

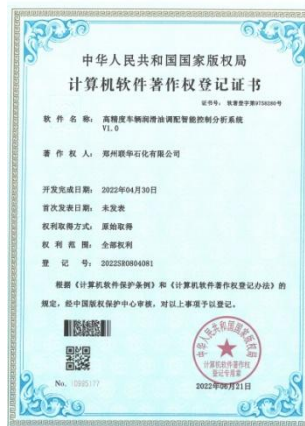

工业润滑油生成质量检测评估软件

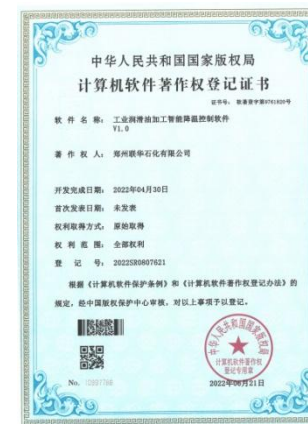

润滑脂进料自动控制系统

车辆润滑油油质检测及预测软件

高精度车辆润滑油调配智能控制分析系统

工业润滑油加工智能降温控制软件

润滑油脂用可分散氧化锌或硫化锌纳米微粒及其制备方法和应用

Henan Zhilian New Materials Research Institute, provincial and ministerial universities, and domestic characteristic backbone universities jointly build laboratories to carry out scientific and technological innovation, joint research and development, and transformation of technological achievements. It is a comprehensive platform integrating collaborative innovation, achievement transformation, technical services, and personnel training. Innovative service platform.

Research and development direction: energy-saving management technology, nano-anti-wear and friction reducing agent, energy-saving long-term lubricating grease, inspection and testing services, wind power industry lubricating grease, special high-temperature lubricant research, new energy technology and product research and development, robot lubricating grease development, Development of precision bearing lubricating grease.

Scientific and technological achievements: Developed a series of synthetic ester-based lubricating oil additives, solved the use requirements of lubricating oil additives under extreme working conditions, and broke many technical problems. More than a dozen national patents and software copyrights are being declared.

Green Earth Guardian Expert

Self-owned brand, differentiated customization, excellent performance

Zhengzhou Lianhua Petrochemical has its own independent brands Hanxing and Weirun, which can be customized according to customer needs. In line with the principle of "integrity management, mutual benefit and win-win", it is committed to building a world-oriented enterprise integrating R & D, production, sales, testing and service, and an industrial product integration service expert enterprise with core competitiveness.

Zhengzhou Lianhua Petrochemical Co., Ltd. is an enterprise specializing in the research and development, sales and service of special, energy-saving, degradable products and technologies, mid-to-high-end lubricants, chemical products, new materials, precision instruments and meters, and environmental protection technologies. The cooperative customers cover aerospace, military industry, automobile manufacturing, metallurgy, new energy, mechanical processing, construction machinery, agricultural machinery, mining, food, medicine and other industries. Maintain good cooperative relations with well-known manufacturers at home and abroad, and jointly build laboratories with scientific research institutions and universities to develop and apply new materials and new technologies.

Quality Assurance and Commitment--Based on Honesty and Honesty, Practicing Words with Actions

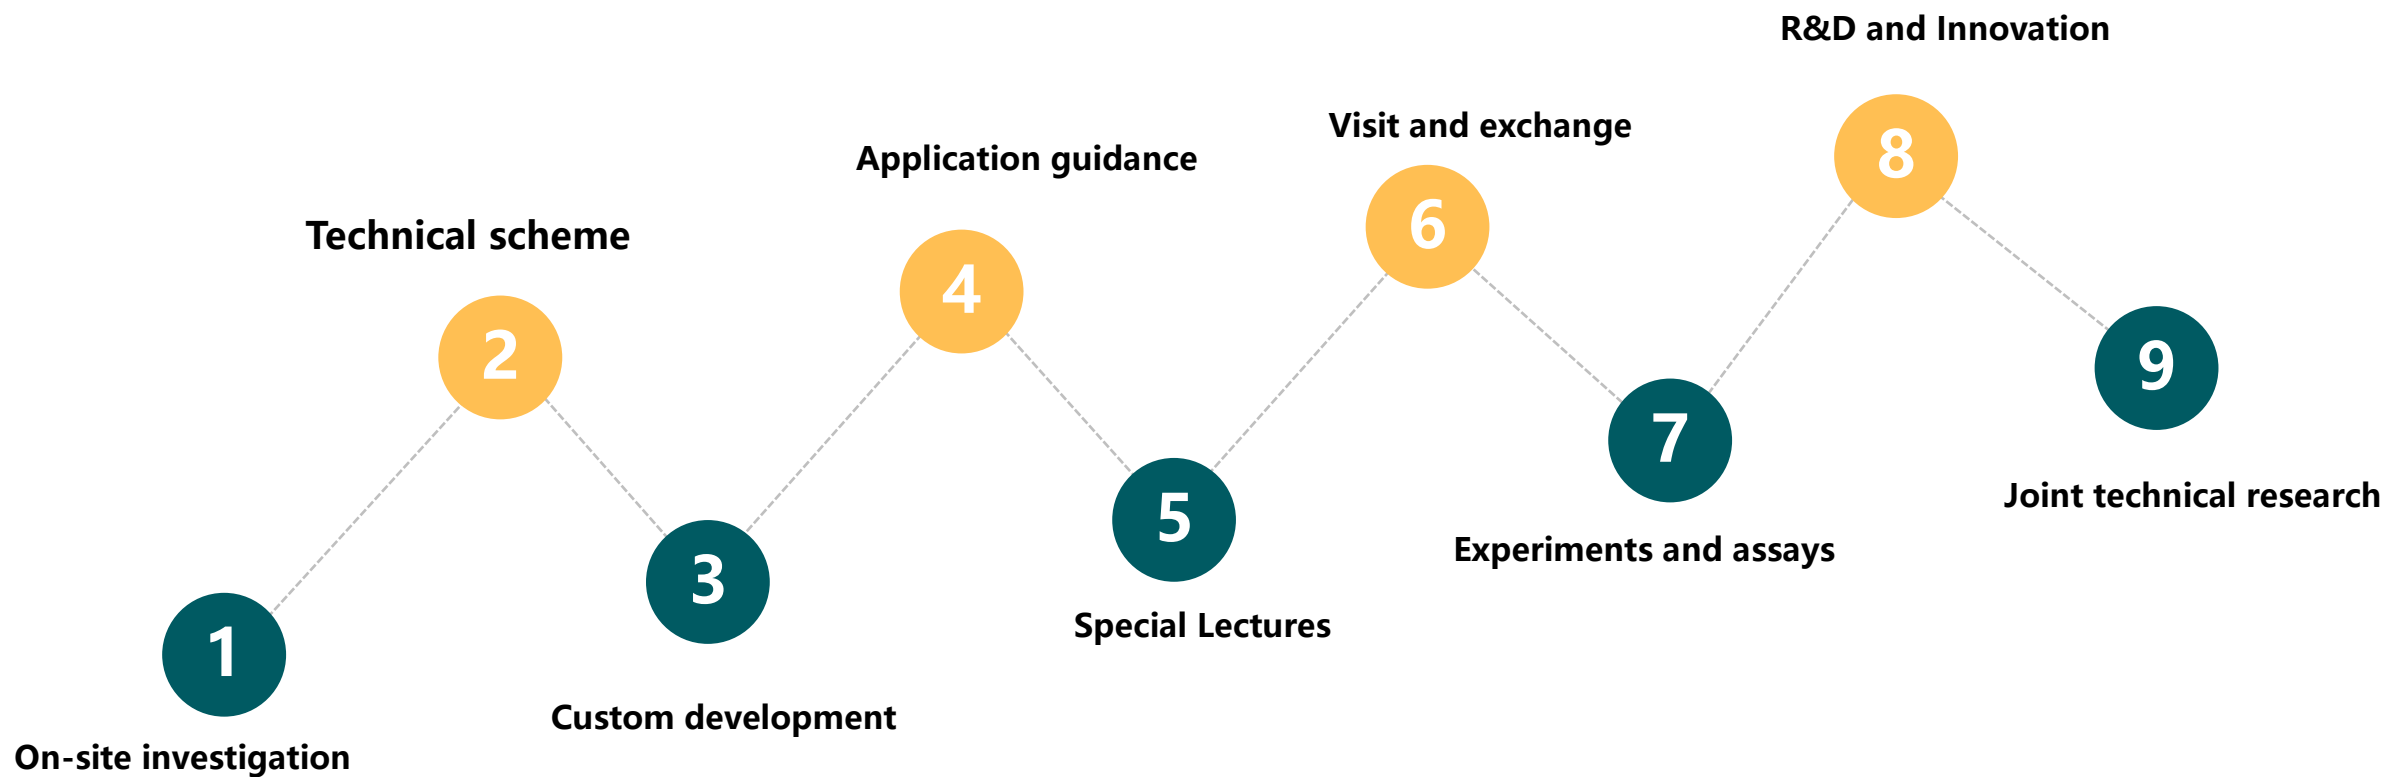

Every drop of oil is a promise,
Never sell a drop of fake oil!!

Integrity management, resource sharing, and achieve win-win and development with partners.

Enterprise Vision: A world-class integrated service expert enterprise

Strategic Partners

每一滴油都是承诺！

Every drop of oil is a promise

You only need a phone call, professional services we do
